

# Definition of Done

**Lost And Found**

**Team Rocket**

**25 July 2018**

## **Definition of Done (User Stories)**

- ❖ All tasks for that user story are done
- ❖ The code for the user story has been merged with the master branch in our team's Github repository, and still works
- ❖ The code for the user story has been merged with the master branch in our team's Github repository, and all previous code still works
- ❖ The user story has been inspected and accepted by the product owner and team

## **Definition of Done (Tasks)**

- ❖ The code for the task has been checked into the developer's Github branch
- ❖ The code has been visually inspected by at least one other team member for:
  - Coding style consistency
  - Sufficient documentation
